

Iowa Farm to School Program Chapter Project Plan

Use this form to identify a particular Farm to School project that your chapter intends to implement. Projects are activities designed to meet the objectives of the Farm to School Program, either focused around the purchase and consumption of Iowa grown food or a related educational activity. The project may be very limited in scope and may occur only once during the school year or it may be very broad in scope and occur with frequency. Some projects may become routine. (See Project Ideas page for examples)

Chapter Name (Sponsoring School): _____

Date or Timeline for the intended project: _____

Scope or description of the project (e.g. What school(s) will the chapter be working with? How many students will be reached? Is the project food based or education based or both?):

Objectives (List what your chapter intends to accomplish with this project. e.g. 1. “We want to get locally grown fresh fruit in Jones Elementary”; and 2. “We want to provide students with educational information about where there food comes from,” etc.):

Strategies to achieve objectives (e.g. “Apples will be purchased from Smith’s Orchard for use in one snack period in October. Funds will be raised to help pay for the apples. Students will receive one apple and information about the benefit of eating fresh fruit.)
