

Iowa Mini-bulk Recycling Program Inventory Registration

The Agribusiness Association of Iowa, Iowa Institute for Cooperatives, Iowa Department of Agriculture and Land Stewardship, Iowa State University Extension and TRI-Rinse, Inc. are teaming up to organize a mini-bulk recycling program in 2011 for unusable tanks. The cost to the dealer will be \$15.00 per tank. While a number of pesticide registrants financially support this program, the fee will allow for the collection of one-way or obsolete containers from those chemical manufacturers who are not financially supporting the program. All tanks must be rinsed and whole (not already cut up). Tanks must be plastic and between 85 and 350 gallons in capacity. Only respondents providing tank inventories will be contacted with the dates and times of the collections, which we anticipate will begin the 4th week in August.

If you wish to participate, please fill out this inventory registration and mail, email or FAX it back to: ATTN: Bryan Gran (PH: 314-647-8338). TRI-Rinse, Inc. 1402 South 2nd Street, St. Louis, MO 63104. FAX: 314-647-5028 or scan and email to bgran@tririnse.com by: **July 15th**. Mail payment to the above address, or, if you would like to pay with a credit card, please contact Julie Pizzitola at 314-647-8338. Thank you!

NOTE: Monsanto offers their own recycling program that only accepts containers that are stamped with the “Shuttle MTS” or “Monsanto Refillable Container System” logo. Contact Monsanto directly via e-mail: chemical.monsanto@stl.monsanto.com or at 800-325-1224 for a pick-up. Tanks with Monsanto labels that are not stamped with the above words will be accepted in this recycling program.

Inventory of mini-bulks needing to be recycled: (All Information is required)

Chemical Manufacturer (list label name and chemical Manufacturer if other/generic)	Number of tanks	Chemical Last Stored in Tank	Tank Size in Gallons	Check if cage tank
