009-0044 (Signature) (Date)

Iowa Administrative Code 811--11.1(169) Continuing education required. At least sixty hours of continuing education in

courses approved by the Board of Veterinary Medicine shall be completed triennially by each licensee as a condition for license renewal. The licensee has responsibility for financing of continuing education. These credit hours may be obtained by attending board-approved scientific seminars and meetings on the basis of one credit hour for each hour of attendance. Attendance at any approved national, state or regional meeting will be acceptable. One hour of credit may be approved for local meetings where a scientific paper is presented. Credit for qualified graduate college courses may be approved on the basis of multiplying each college credit hour by 10, to a maximum of 30 hours during any one triennial license period. A maximum of 20 hours during any one triennial license period of continuing education may be achieved by completion of approved home study courses.

Each licensee shall obtain 60 credit hours between July 1 of the year the license was issued and June 30 of the following third year as a condition precedent to license renewal. Continuing education credits in excess of 60 hours for any three-year license period may be carried over to the next license period, but the total number of credits carried over shall not exceed 20 hours.

Completion of the continuing education will be reported to the secretary of the board of veterinary medicine on forms provided by the board, at the time the license is due for renewal. The reporting form must be signed by the license holder and accompanied by a renewal application and the proper renewal fee.

This rule is intended to implement sections 169.5, 169.12 and 258A.2, The Code.
