

# Attention Pesticide Certification Testers

IDALS Pesticide Bureau testing procedures at all IDALS-proctored testing sites beginning in **January, 2017**.

- Individuals should **plan for sufficient time to allow for test completion**. Testing is provided on a walk-in basis within the posted test site hours only.
- All testers will **need to check in at a computer station upon arrival** at a testing site.
- All testers must show a **current ID** during registration.
- Testers will need to **know all category test(s) they plan to take** that day at the time of registration.
- Every applicant will be responsible for **checking test(s) back in** before leaving the room. Failure to comply will be sanctioned.
- Any school/organization planning to send **groups of 6 or more testers** to an IDALS-proctored test site will need to **contact the Pesticide Bureau** prior to the test site date. IDALS may request a list of names to **pre-register** the group. This will help avoid unnecessary delays at the testing site.

Feel free to contact the Pesticide Bureau if you have any questions: 515-281-8506 or 515-281-8591.
