

Application for the “Fueling Our Future” Awards Program

The “Fueling our Future” pilot program is administered by the Iowa Renewable Fuel Infrastructure Program (RFIP) of the Iowa Department of Agriculture and Land Stewardship (IDALS) and the Iowa Department of Transportation (IDOT). This program seeks to gain better consumer information about their fueling preferences, focus on marketing opportunities that will increase the use of higher blends of ethanol and biodiesel, and provide a pathway to reduce particulate matter (PM 2.5 or less) in Iowa.

The project will utilize grant incentives to encourage interest and participation for specific infrastructure upgrades and data sharing. The data sharing is expected to involve sharing of fuel sales over a specified time period and limited access to customers and employees to gather information and data. The extent of this data sharing will be mutually agreed upon by all parties.

Reimbursement can be for up to 50% of the costs for specific components of a project with a cap of \$250,000. A five-year commitment to sell specific renewable fuels and to support research efforts is required. This RFP will seek to identify the most outstanding and innovative project proposal(s) for current and future funding opportunities. Applicants may be asked to present their proposal to the Iowa Renewable Fuels Infrastructure Board.

This pilot project utilizes Federal Highway Administration funds of the US Department of Transportation. Because this is federal funding, the recipient will be responsible for complying with all applicable federal statutes and requirements. Those requirements will be discussed in detail with the applicant before final approval.

The grant program will be jointly managed by Harold Hommes, IDALS, PH: (515) 242-6237, harold.hommes@iowaagriculture.gov and Stuart Anderson of IDOT, PH: (515) 239-1661, stuart.anderson@dot.iowa.gov. Iowa State University’s Institute for Transportation (INTRANS) has been contracted to provide research support.

Applications and Proposals may be submitted for review by the RFIP Board up to 15 days prior to a scheduled quarterly meeting.

Quarterly meetings and application deadlines are posted online at <http://www.iowaagriculture.gov/agMarketing/IRFIP.asp>

Once complete, the (1) application and project proposal are to be sent to:

Mail:	Fueling Our Future	Fax: (515) 281-8025
	Iowa Department of Agriculture and Land Stewardship	E-mail: renewablefuelgrants@iowaagriculture.gov
	ATTN: Renewable Fuel Infrastructure Program	
	502 East 9 th Street	
	Des Moines, Iowa 50319	

This application is subject to change and revision at anytime. Please check the Renewable Fuel Infrastructure Program website at <http://www.iowaagriculture.gov/agMarketing/IRFIP.asp> for the most recent revision.

Notice to Applicants – Open Records Information and the Renewable Fuels Promotions Information Sheet

Upon submitting this application to the Iowa Department of Agriculture and Land Stewardship, it becomes an open record available for public inspection. Accompanying this application is the Notice to Applicants – Open Records section, please review the application and supporting materials and mark one of the following:

- No request. I have reviewed the Notice to Applicants – Open Records section included with the application. I understand that upon filing this application it becomes an open record available for public inspection.
- Yes, there is information in this application for which the applicant requests confidential treatment. Please refer to the accompanying instructions and Example and Request for Confidential Treatment Form. Complete the Request for Confidential Treatment Form and submit with application.

I hereby certify that all representations, warranties, or statements made or furnished to the Department in connection with this application are true and correct in all material respect. I also certify that the renewable fuel infrastructure presented in this application and proposal will not be used to store or dispense motor fuel other than ethanol blends distributed through blender pumps gasoline and/or biodiesel blends distributed through blender pumps, unless granted a waiver by the Infrastructure Board.
