**811-8.10(169,272C) Continuing education.**

**8.10(1)** At least 30 hours of continuing education in courses approved by the board of veterinary medicine shall be completed triennially by each registered veterinary technician. The registrant has the responsibility for financing continuing education. These credit hours may be obtained by attending approved scientific seminars and meetings on the basis of one credit hour for each hour of attendance. Attendance at any board-approved national, state or regional meeting will be acceptable. Credit for qualified graduate college courses may be approved on the basis of multiplying each college credit hour by 10, to a maximum of 15 hours during any one triennial. A maximum of 10 hours during any one triennial may be achieved by the completion of approved home study courses.

**8.10(2)** Each registrant shall obtain the 30 credit hours between the registrant's certificates anniversary date and the last day of the following three-year period. However, a registrant who graduated from an accredited college of veterinary technology within three years of the issuance of an Iowa certificate is required to obtain only 20 credit hours for the first triennial. Continuing education credits in excess of 30 hours for any three-year period may be carried over to the next triennial period, but the total number of credits carried over shall not exceed 10 hours.

**8.10(3)** Completion of the continuing education will be reported to the secretary of the board of veterinary medicine on forms provided by the board by December 31 of the triennial anniversary year. The reporting form must be signed by the registrant and accompanied by an administration fee of \$15.
